

## Ontario Ministry of Labour – Diving Health and Safety Program

### DIVING OPERATION NOTICES

#### UPDATE

**Date:** May 1, 2007

**To:** The Ontario Diving Industry and User of Divers

**Re:** “NEW”- Diving Notification Information and Contact Numbers

---

The “Regulation for Diving Operations” 629/94 identifies the duties of employers, constructors and owners to give a notice of a diving operation prior to commencement of the operation.

It requires that the constructor of a project where a diving operation is to take place and the employer and the owner associated with a diving operation ensure that the Ministry is given notice of the diving operation in writing before the diving operation begins. Alternatively, it allows for the notice be given orally before the diving operation begins and in writing within 30 days after the day on which the diving operation begins.

A written notice that is required by this regulation shall be given by delivering it to the Ministry diving notice, address or by delivering it by facsimile transmission using the diving notice, facsimile transmission number. An oral notice that is submitted to the Ministry shall be given by telephoning the diving notice telephone number.

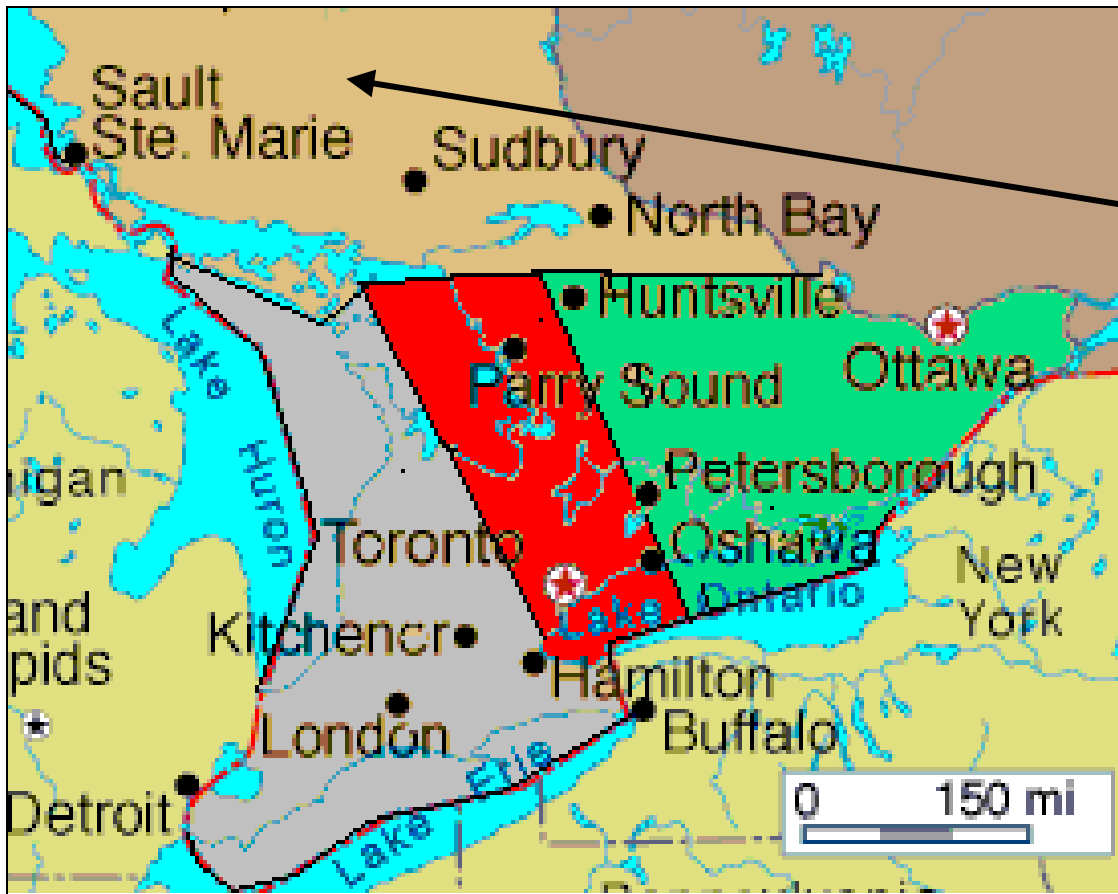

The attached map identifies regional mailing addresses, verbal telephone notification numbers and facsimile notification numbers for the purpose giving the required diving notification and which are effective June 1, 2007.

These notification numbers will come into effect immediately.

Thank you.

Michael Chappell  
Provincial Coordinator  
Construction Health and Safety Program
